

To Whom It May Concern:

Please find the following specifications for the Computer Voice Stress Analyzer[®] II:

The Computer Voice Stress Analyzer[®] II detects, measures, and graphically displays certain specific stress related components of the human voice. Superimposed on the audible voice frequencies are inaudible frequency modulations (FM) whose strength and pattern relate inversely to the degree of psychological stress of the speaker.

The Dell Latitude ATG is a special order item. Please contact NITV[®] for current specifications.

The Latitude ATG is a tough, All Terrain Grade laptop designed for demanding work environments where dust, vibration and moisture are daily facts of life. Fully compatible with standard Dell Latitudes, the Latitude ATG boasts a range of innovative features that can protect it from some of the harshest work environments and enhance its usability in demanding conditions. It is a perfect solution for public organizations like police forces, and is designed to put a high-performance business laptop in an incredibly durable and usable package.

It features a shock-mounted, removable hard drive, a shock-mounted LCD screen, a dust and spill-resistant keyboard, port covers and more. The Latitude ATG is prepared for dust, humidity, vibration and high altitudes, plus a lot of the accidental bumps and knocks that are part of the territory when you're working in the field. The Latitude ATG LCD back and edges are covered in a highly durable, textured paint that provides an additional layer of protection against scratches, scuffs and the daily wear that can come from working in demanding environments.

In addition to being rugged and durable, the Latitude ATG is designed for great usability in a variety of difficult work environments. It features a super-bright 500-nit LCD display with anti-reflective coating, so the screen can be easily seen on even the brightest days. On the other hand, if you're working in dark environments or at night, the ATG's special ATG task lights will illuminate the keyboard so you can stay productive anywhere. These features, along with its durability and high performance Intel Core 2 Duo dual-core processor, make the Latitude ATG a force to be reckoned with.

Sincerely,
James A. Kane
