Dear Mr. Humble:

On October 1, 2009, a court decision in *Gjurovich vs. United States* upheld the use of the CVSA for offenders under the supervision of U.S. Probation in the Northern District of New York. Highlights of the case are depicted in the October 8, 2009, New York Law Journal article, "Court Finds Offenders Can Be Subject to Voice Analysis to Detect Lies." As the decision and article indicate, the CVSA has become a useful tool in the supervision of high risk offenders.

Our office would like to thank NITV for the support provided in preparing for the above noted case. The support came as no surprise as our office has consistently been provided with such support by NITV since we began using the CVSA.

Should you have any questions about the case, please feel free to contact our office.

Sincerely,

Edward Cardinal
U.S. Probation Officer
